DETAILED ACTION

Response to Arguments

The declaration under 37 CFR 1.132 filed 5/23/07 is sufficient to overcome the rejection of claims 1-17 based upon Kim et al (Porous ZrO₂ bone scaffold coated with hydroxyapatite with fluorapatite intermediate layer, applicant submitted).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-17 are rejected under 35 U.S.C. 102(a) as being anticipated Zhang et al (2003/0099762).

Referring to figure 2, Zhang et al teaches:

A porous bioceramics for bone scaffold comprising:

a biocompatible porous ceramic 2 (first layer, see at least claim 2 teaching ZrO₂) substrate having the property to thermal-decompose hydroxyapatite in contact with it;

a fluorapatite (FA) inner layer 6 (second layer, see at least paragraph 0037 teaching fluorapatite) formed on said porous ceramic substrate; and

a hydroxyapatite (HA) outer layer 8 (third layer, see at least paragraph 0027) formed on said fluorapatite inner layer.

All other limitations are self-evident or inherent properties to the materials.
